

AN APPEAL TO DONORS:

We would want the well wishers and supporters who come from assorted backgrounds to dedicate some time for these children so that they can benefit from the experiences.

The following are the few necessary activities for us to consistently seek our vision and mission aimed at providing education, awareness on eradicating poverty and make it an unbiased society with opportunities for all. It is our sincere and humble request to each one of you to support us in this endeavor in every possible way you can. Sponsorship details are as follows.

When a child smiles at us, we smile back imprudently. For a brief moment the interaction helps us forget that there are problems in this world and we get trapped in the bubble of innocence and happiness that a child carries along. But when we look at a child and see pain in their eyes, what do we do? Do we walk away looking for a delighted face or do we stop and wonder, why should this child be not elated like every other child?

We, at Valmiki Hriday, decided to take the initiative to put the smile back on all those celestial souls who were designed by nature to be happy but deprived of that happiness by destiny. A child taken care of today is the source for a good family, better society and better nation tomorrow. With that as the motive, Valmiki Hriday is presently accommodating 40 boys at Hasmathpet, Old Bowenpally, Secunderabad, Telangana, India Within the constraints of the available resources; we are also giving education support to another 10 children.

Children who have lost both parents

Single parent children

Children from below poverty line

Children of physically and mentally challenged parents

As seen above, we are focused on bridging the destiny gap for those kinds who are deprived of opportunities for no fault of theirs.

Taking care of Residential Needs:

SHELTER

The premise is just the neighbourhood. But a lot more goes in to create an atmosphere of safety and care for the children. It's a triplex building to accommodate about 40 children at the moment in a gated community. It consists of a hall, a dining room, a kitchen and got 4 bedrooms with attached bathrooms and a Television set — an atmosphere as close to a home as possible.

FOOD

The children are provided with healthy & nourishing food during breakfast, Lunch & Dinner. Once in a week, based on a Diet Chart, they are provided Non-Vegetarian Food. Providing fruits during the week is also part of the diet chart as they are young children who are studying and require proper nutriment.

CLOTHING

We also take care of their clothing by providing regular dresses in addition to 2 sets of school uniforms per student.

RECREATIONAL & HEALTH CARE FACILITIES

We at Valmiki Hriday let them choose their enjoyments — be it dances, cultural activities, indoor, outdoor games or sports — and provide the platforms for the same. For example, we have teachers to teach various dance forms, we have regular feedback sessions for the children to say what they want to and ask for what they need. We strive to address the same within our limited means. Additionally, we assure regular health checkup.

RESIDENTIAL STAFF

We have appointed a full time family to take care of the needs of the children, who takes parental care of the children round the clock. Apart from housekeeping staff, a dedicated team support is available for other required important activities.

COUNSELING

While we are keen that the children are provided with the basic requirements, we are not oblivious to their emotional needs and the significance of addressing the same on their long term character building. So we work with them in the provided environment where they can open up with their feelings.

TEACHING LIFE SKILLS

In the times that we live in, we realize the importance of life skills in shaping careers of children, especially those who come from the disadvantaged background. So we have special emphasis on building language skills(Esp. English), adaptive and positive behavior to build the flexibility and confront their skills.
